INTERESTS

Code, Badminton, Make music, Listen to music

OBJECTIVE

I aim to develop my career in the field of web development, especially with WordPress and PHP. With around 1 year of experience in building, designing, and developing websites, I wish to continue improving my skills, learning new technologies and frameworks, thereby contributing to the development of high-quality, user-friendly products and accompanying the company in its sustainable growth over the long term.

WORK EXPERIENCE

08-2024 - 08-2025 | PHP DEVELOPER

EFE TECHNOLOGY

Developed and customized WordPress websites based on client requirements using both existing themes/plugins and custom solutions.

Built advanced forms with Gravity Forms, including conditional logic, data validation, and PDF export functionality.

Optimized responsive layouts and enhanced user experience (UX/UI).

Maintained, debugged, and updated existing websites.

- Featured projects:
