> I aim to develop my career in the field of web development, especially with WordPress and PHP. With around 1 year of experience in building, designing, and developing websites, I wish to continue improving my skills, learning new technologies and frameworks, thereby contributing to the development of high-quality, user-friendly products and accompanying the company in its sustainable growth over the long term.

Education

Da Nang University of Education | Sep 2020 - Sep 2024
Major: Information Technology
Degree classification: Good

Work experience

Aug 2024 - Aug 2025

PHP Developer

EFE Technology

- Developed and customized WordPress websites based on client requirements using both existing themes/plugins and custom solutions.
- Built advanced forms with Gravity Forms, including conditional logic, data validation, and PDF export functionality.
